

Dear Parents and Guardians,

Learning in the 21st Century Classroom includes ongoing collaboration between your child(ren), other students and her or his teachers. The Near North District School Board utilizes a secure online platform known as Office 365 as a method to facilitate this ongoing collaboration.

Office 365 includes a suite of online features such as web based e-mail. Students all have access to their own @nearnorthschools.ca personal e-mail account. Office 365 also includes other collaboration tools such as a personal address book, calendar, news feeds, and the ability to create and publish quality web sites to share their learning experiences. Office 365 includes OneDrive which is a personal online storage area where documents can be stored and shared securely. Your child(ren) also have access to online versions of Microsoft Word, Excel, PowerPoint and OneNote all within Office 365.
