

Dear Parent/Guardian,

TVO continues to offer 1:1 online math tutoring with Ontario Certified Teachers in a safe and secure online environment through TVO Mathify (formerly Homework Help). All Near North District School Board students in grades 6 – 11 have access to this support:

Supports include an interactive whiteboard, chat room, personalized learning, and an online portfolio for saved work and tutoring sessions.

To register or login, students can click the link on the Mathify page of the NNDSB website ([www.nearnorthschools.ca/students/tvo-mathify](http://www.nearnorthschools.ca/students/tvo-mathify)) or they can select Mathify from the LMS. We look forward to your child having the opportunity to use this resource.
