## ADMINISTRATIVE GUIDELINE

Title: Behaviour Management Crisis Intervention

**Effective Date:** February 1, 2004 **Responsibility:** Superintendent of Program and

November 11, 2013 Schools

February 22, 2016

## 1.0 Rationale

The Near North District School Board is committed to educating learners to their fullest potential. Providing a safe and inviting learning environment is a key element in the fulfillment of this commitment.

Behaviour management supports this commitment and is an ongoing process that requires different levels of intervention, when different levels of at-risk behaviour are demonstrated. The most critical of these levels occurs when an individual, becomes physically aggressive in a manner that would predictably threaten his/her personal safety or the personal safety of others. At that level a staff member(s) needs to determine appropriate strategies to deal with the situation successfully. The Collaborative and Proactive Solutions approach to solving problems is the approach endorsed by the NNDSB and will assist staff to be proactive in dealing with challenging behaviours.

The majority of behaviour management strategies are developed and delivered at the local school loll

**Behaviour Management Crisis Intervention** 

- 3.2.2 Physical containment/restraint is not to be considered a "therapeutic holding".
- 3.2.3 Whenever possible, a response team member should not act alone but have another staff member present. It is advisable to have the principal and/or vice principal present as well. If the other staff member does not have BMS training, they are
