

Submitted by: West Ferris Intermediate Secondary School Parent ARC Representatives

Date: April 5, 2017

*(How is  
this solution  
sustainable?)*

Note: \* applies to both West Ferris and Chippewa

- x \*This longterm viability defence is based on financial consideration that reflect the total overall cumulative renewal numbers given for the two schools, as well as the number of students projected by the NNDSB for OTG capacity of West Ferris of 1099 students combined with Chippewa's OTG capacity of 1200 create an OTG capacity between the two schools of 2299, meeting the required needs of population projections.

X
