What will my child learn and do during the regular school day?

Children who are prepared to learn are more likely to succeed in school. Children who are not prepared to learn are more likely to struggle in school. Children who are prepared to learn are more likely to be successful in school. Children who are not prepared to learn are more likely to be unsuccessful in school. Children who are prepared to learn are more likely to be successful in school. Children who are not prepared to learn are more likely to be unsuccessful in school.

EXAMPLES OF LEARNING THROUGH PLAY

Exploration and investigation:

Children explore and investigate objects and materials in their environment. They use their senses to explore and investigate objects and materials. They use their hands to explore and investigate objects and materials. They use their eyes to explore and investigate objects and materials. They use their ears to explore and investigate objects and materials. They use their nose to explore and investigate objects and materials. They use their mouth to explore and investigate objects and materials.

How can I be involved?

There are many ways you can be involved in your school's environmental work. Here are some ideas:

1. Join the school's environmental club or committee. This is a great way to meet other students who are interested in the same things and to work together on projects.

2. Participate in school events and activities. This could include recycling drives, tree planting, or environmental fairs.

3. Write articles or essays about environmental issues. This can help raise awareness and encourage others to get involved.

4. Organize or participate in fundraisers for environmental causes.

5. Work on school projects that focus on environmental issues, such as creating a school garden or recycling program.

6. Participate in school competitions or contests related to environmental issues.

7. Help with school maintenance projects, such as cleaning up litter or painting murals about environmental issues.

8. Share your ideas and suggestions with your teachers and school administrators.

9. Work on projects that focus on environmental issues, such as creating a school garden or recycling program.

10. Participate in school events and activities that focus on environmental issues, such as Earth Day or National Recycling Week.
