

Where to Learn More About the COVID-19 Vaccine & Youth

Most children with COVID-19 have mild symptoms or none at all. However, some children with COVID-19 can get very sick. Children can also spread COVID-19 to other people. Vaccinating children protects them from getting sick and reduces virus spread within their household and the community.

To help your child and your family to make an informed decision, the Government of Ontario has developed a fact sheet (attached) based on expert medical advice and scientific information. It covers several key areas including:

Safety of the vaccine for youth Why vaccination is important Effectiveness of the vaccine for youth
